ICHSAN SAPUTRA

Data & Business Intelligence Engineer | Oracle SQL | PHP APIs | Dashboard Development | Workflow Automation

Transforming business requirements into structured data, automated workflows, interactive dashboards, and actionable insights.

PROFESSIONAL PROFILE

Data & Business Intelligence professional with more than 10 years of experience in performance reporting, database operations, analytics, competitor research, dashboard development, and application support. Skilled at translating business requirements into SQL queries, data structures, PHP-based APIs, application workflows, KPI reports, and dashboards for operational and management users.

FOCUS AREAS

Oracle SQL	Business Intelligence	Dashboard Development
PHP APIs	Data Engineering	Workflow Automation

PROFESSIONAL EXPERIENCE

Competitive Intelligence Specialist | Data & Business Intelligence Engineer

Telkom Indonesia | Apr 2025 - Present | Jakarta | On-site

- Conduct competitor and market research to support business strategy and product positioning.
- Collect, validate, and manage business, operational, product, and competitor data from multiple sources.
- Develop Oracle SQL queries for data extraction, validation, transformation, reconciliation, and reporting.
- Build PHP-based APIs, application workflows, KPI dashboards, SLA monitoring, project monitoring, and product portfolio dashboards.
- Translate business requirements into database structures, business rules, workflows, and dashboard components.
- Coordinate with cross-functional teams to maintain data consistency and reporting accuracy.

Performance Reporting & Analytics

Telkomsel | Dec 2022 - Dec 2024 | Jakarta | Hybrid

- Collected, validated, and reported operational performance data based on established KPI targets.
- Developed daily, weekly, and monthly reports for management monitoring.
- Managed and synchronized sales, revenue, Line in Service (LIS), churn, and operational data from multiple sources.
- Created regional and area-level performance reports to support management review and decision-making.
- Supported recurring and ad-hoc data requests while maintaining data consistency and reporting accuracy.

CRM Database & Reporting Support

Telkom Indonesia | Jan 2015 - Dec 2022 | Jakarta | Hybrid

- Managed operational, customer, sales, revenue, churn, collection, and service performance data for recurring management reporting.
- Developed and maintained performance reports based on established KPI requirements.
- Performed data extraction, validation, reconciliation, and reporting using PostgreSQL, MySQL, and internal data sources.
- Maintained data consistency across applications, databases, and reporting sources.
- Supported internal applications, reporting troubleshooting, data updates, and ad-hoc management analysis.

HIGHLIGHTS

- 10+ Years Experience
- 3 Portfolio Case Studies
- 4 Core Data Domains
- 2 Bilingual CV / Portfolio

KEY CERTIFICATIONS

- Data Analyst Beginner & Intermediate
- Python Fundamentals
- MySQL Database Fundamentals
- Excel Intermediate
- Web Programming Training

PROFESSIONAL EXPERIENCE (CONTINUED)

Contact Center Reporting & Operational Support

Telkom Indonesia | Aug 2013 - Jan 2015 | Jakarta | On-site

- Supported operational reporting and management information needs for contact center activities.
- Collected, validated, and consolidated performance data from multiple operational sources.
- Prepared recurring reports for managers and senior management.
- Monitored service performance indicators, identified data discrepancies, and maintained timely reporting.
- Supported internal application usage, user assistance, basic troubleshooting, and procedure documentation.

Supervisor - Contact Center Operations

PT Media Prima HR Solutions | Jun 2010 - Aug 2013 | Jakarta | Hybrid

- Supervised daily contact center operations and monitored team performance.
- Coordinated employee schedules, task assignments, attendance, and operational activities.
- Monitored service quality, productivity, and achievement of operational targets.
- Prepared routine performance reports, provided coaching, and supported team problem-solving.
- Prepared operational documentation, work instructions, and team performance evaluations.

Administrative Correspondence Intern

Ministry of Law and Human Rights, Republic of Indonesia | Apr 2009 | Jakarta

- Supported administrative correspondence and document handling activities.
- Registered, indexed, numbered, distributed, and archived incoming and outgoing letters.
- Assisted with attendance recapitulation, data entry, guest reception, and general office administration.

SELECTED PROJECTS

- 1** Enterprise Project Monitoring Dashboard
An anonymized case study featuring Oracle Database, PHP APIs, SLA monitoring, approval workflows, role-based access, audit trails, and management dashboards.
- 2** Product Portfolio Monitoring Dashboard
A product monitoring dashboard with Excel/CSV integration, data validation, Oracle persistence, workflows, audit trails, and user management.
- 3** Data & Business Intelligence Portfolio
A bilingual portfolio website showcasing projects in data engineering, business intelligence, dashboards, analytics, APIs, and software systems.
